RULE FOR A SAVE

Credit a save to a relief pitcher who enters the game with his team in the lead if he holds the lead the remainder of the game, provided he is not credited with the victory.

A relief pitcher cannot be credited with a save if he does not finish the game, unless he is removed for a pinch-hitter or runner. When more than one relief pitcher qualifies for a save under the provisions of this rule, credit the save to the relief pitcher judged by the scorer to have been the most effective. Only one save can be credited in any game.
